IMPERIAL QUARTO. ENGLISH AND CHINESE DICTIONARY. WITH THE PUNTI AND MANDARYN PRONUNCIATION. An Anglo-Chinese Diggronagy, published at the Daily Press Office, Hongkong.

HOR comprehensiveness and practical service this Work stands unrivalled. All the new words which the Chinese bave of late-years been compelled to coin to express the numerous objeets in machinery, photography, telegraphy, and in science generally, which the rapid advance of foreign relations has imposed upon them, are here given in estense. Black and every word fully illustrated and explained, forming exercises for students of a most instructive nature. Buth the Court and Punti pronunciations are given, the accents being carefully marked on the best principle hitherto attuined. Thutypography displays the success of an attempt to make the Chinese and English type correspond in the size of body, thereby effecting a vast 'economy, of space, achieving a clearness not previously attained, and dispensing with those vast margins and vacant spaces which have heretofore characterized Chinese publications. To illustrate the vast scope of the work, the following facts are submitted for consideration. Chalmers' Vocabularly contains about 16,000 Chinese characters, and Medhurst's English and Chinese Dictionary about 100,000, whilst this work contains more than 50,000 English words, and upwards of 600,000 Chinese characters. Again, despite all the grammare and student of this difficult language absolutely requires examples to display the various applications and equivalents of different words which have one general meaning. Of these examples this work contains more than live times as many as any other Dictionary hitherto pub-

to its pages enables a person who underwith natives who understand nothing but Chinese: In this respect the work will be found indispensable to all Europeans residing in Ohina, and to the natives themselves it explains subjects fully with which very few indeed of them are perfectly acquainted. To parties resident in England and interested in China it cannot but be invaluable occasionally. It comprises upwards of two thousand large quarte pages. TRUBNER & Co.,
